

Contract Growing

The best way to be certain that you get the plants you want when you need them is to schedule a contract grow well in advance of your planting date. In addition to the plants we have in our catalog, we can grow many other species. Contact us at 877-ECO-PLUG or visit our website for a contract grow request form.

Plug Sizes

All plants are grown in a standard 10" x 20" flat in cell pack inserts. The size is the number of plugs per tray. Plants must be purchased in multiples of the size.

38 Deep Plug

5" deep roots for a fast start in a container or in the landscape.

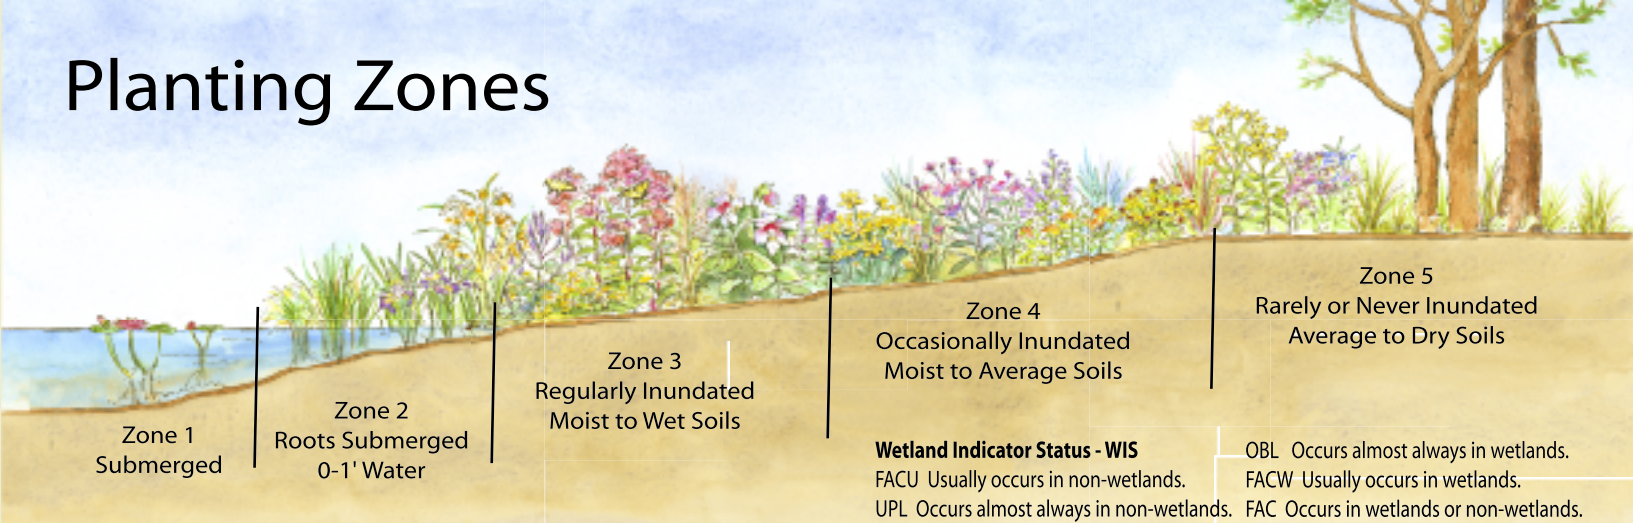

32 Plug

For shade species that often need to be planted amongst tree roots.
